Dear Brent,

I currently work for S/S Wolfe Counseling and I am the one who prepares the billing for the state contracts. Since ECASE I work one day a week running reports, checking on compliance with contract requirements, and printing off progress notes. Before ECASE I was spending most of my week doing the same thing. Preparing the billing now is a task that I no longer dread. I am happy to recommend ECASE to anyone who is responsible for making a business run smoothly. ECASE is the program that has made that happen for me. I don't know how we did it before ECASE.

Sincerely,

Shelly Akins
